- Evaluation of outcomes
- Reading plans
- Building code and standards
- Hints, tips and tricks
- Role of the Case Owner
- Measuring turning circles

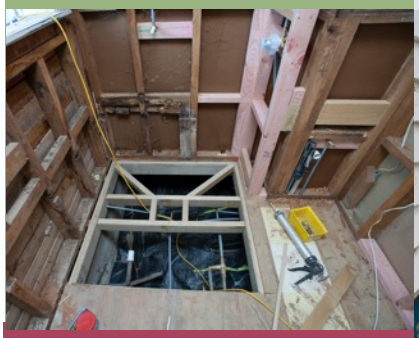

About the Trainer

David has worked as an OT in New Zealand for 25 years, always in the area of housing modifications; as a community OT, with EMS providers developing and leading the professional advisor role, and heavily involved in Ministry policy development for housing modifications and OT competency requirements. David also developed and runs the Show Your Ability roadshows.

David was part of the team closing the Kimberley Centre providing 66 modified group houses to former residents.

David is the nationwide provider of OT housing modification workshops for the Ministry of Health. These workshops have received excellent feedback from Occupational Therapists.

David is in private practice undertaking housing assessments for ACC in the Auckland/Waikato/Bay of Plenty area.
